

A Profitable, Safe Investment

Where can you find a safer investment than in your own business?

Haven't you had too little of everything for the last 15 years?

Do you realize that:

1. Lining-out Red Barberry planted now @ 9¢ to 12¢ in less than 2 years will bring you 75¢ each and up!
2. If you buy lining out Viburnum burkwoodi @ 30¢ in four or five years will return you \$5.00 to \$10.00 each!
3. By planting lining out Juniper hetzi @ 20¢ you receive \$4.50 and up 3 years later!

Most economists agree that America's economy will remain dynamic and the amount of stock needed to satisfy an ever expanding market will be fantastic.

To help make this investment even more secure we are growing lining out stock which is of the highest quality that skill and knowledge can produce.

As good lining out stock is in great demand we suggest you look over the enclosed list of material and place your order soon. This will avoid disappointment and loss of another year's growth.
